The ASA national Qualifier is a pre-qualifying tournament, where young ladies vie for a berth to the National Tournament. Their hard work and dedication are put to the test during this 2-day event where they play several games throughout the day. The friendly competition encourages the young ladies to work hard, boost team morale, create new friendships, and set and achieve goals. While participating in the sport, they also learn teamwork, dedication, dependability and how hard work pays off. Awards are given at the end of the tournament. First through fourth place awards are given. Team members on the 1st and 2nd place team will also receive individual awards to take home.
